

Conventional, Integrative, and Alternative Care for Breast Cancer

About 40,000 women in the U.S. die of breast cancer every year after having the conventional treatment, and others are harmed by the serious side effects.

Thursday, Sept. 7th

11:30am – 1:00 pm

Light refreshments served

In this presentation, Janet Maker, Ph.D., will explain the similarities and differences between conventional, integrative, and alternative care. Using her own experience as well as published research, Janet discusses how integrating different modalities can lead to better outcomes for patients.

Janet Maker, Ph.D. is author of *The Thinking Woman's Guide to Breast Cancer: Take Charge of Your Recovery and Remission*. The book helps patients find the information they need to make the best decisions about their own treatment and the best ways to stay in remission.

Janet Maker, Ph.D.
